

My username is supposed to be my first name underscore last name (firstname_lastname). How do I make an underscore?

1. Locate the Shift key in the bottom left corner of the keyboard above the Ctrl key.

2. Locate the underscore / hyphen key located in the top right origin of the keyboard between the "0" key and the "+ / =" key.

3. Hold the Shift key down and push the underscore / hyphen key down one time and release the key directly afterwards.
