

I took Owens Web CPR, and one of the hints was to "Always use your antivirus software to check files before you send them to others". How do I do this? Thank you!

Hello Pamela!

Generally you can right click on the file's icon and there will be an option for your anti-virus software to scan the file.

Give us a call at (567)661-7120 if you have any more questions!

Thanks!

Ali
