

When I try to apply, I am getting message that Otech is not currently accepting applications. Why am I getting this message?

The Otech application will only be posted on the website when computers are available, if you see a screen like this:

"Conserving resources through experiential learning and community outreach"

Request to receive Otech refurbished computer equipment

We are not currently accepting applications. If you have questions, please email otech_support@owens.edu

Please check back, more computers will be available soon!
