

# What is the Financial Aid Freeze Date and why is it important?

Owens Community College uses a "freeze" date each semester to determine a student's enrollment status for awarding financial aid. The courses for which the student is registered on the freeze date will determine financial aid eligibility as long as the completed results from the student's Free Application for Federal Student Aid (FAFSA) are on file by that date.

Please contact Oserve for more information on the freeze date and how it will impact your financial aid. You can also read about the freeze date policy by going to [https://www.owens.edu/financial\\_aid/enrollment.html](https://www.owens.edu/financial_aid/enrollment.html)
