

How do I download my grades so I can submit them to my Department Chairperson?

You can download and save your classes' grades in the Grade Center as an Excel (.XLS) file for use in a spreadsheet program such as Microsoft Excel. Downloading grade data does not remove any information from the Grade Center. The Total and Weighted Total columns are included in the download file.

TIP: Downloading grade data in each of your courses or organizations is a good practice to do at the end of every term. This gives you easy future retrieval of grades in case your campus policy is to reset (and therefore remove) student information in online courses at term conclusion.

1. In the **Control Panel**, click **Full Grade Center**.

The screenshot shows the Blackboard interface for a course named "charat sandbox". At the top, there are navigation tabs: "My Campus", "My Courses", "Community", "System Admin", and "Blackboard Info". Below these, the "Announcements" section is active, displaying a "Create Announcement" button and a message: "New announcements appear below this line" and "No Announcements found." On the left, a "COURSE MANAGEMENT" sidebar contains a "Control Panel" with expandable sections: "Files", "Course Tools", "Evaluation", "Grade Center", "Needs Grading", "Full Grade Center", "Assignments", and "Tests". A black arrow points to the "Full Grade Center" link in this sidebar.

2. Click **Work Offline**.

3. Select **Download**.

4. Select **Full Grade Center**.

5. Select **Delimiter Type: Tab** and Include **Hidden Informaton: No**.

6. Select the location for the download by clicking **Browse** to select the folder on your computer.

Note: Most files downloaded to My Computer will default to the Desktop.

7. Click **Browse** to select the folder.

Download Grades

Full or partial data can be downloaded from the Grade Center. Once downloaded, Grades, or comments accessed through the Quick Comment feature or the Manually Override page, can be changed and added offline and later uploaded to the Grade Center. Data can be downloaded as tab-delimited or comma-delimited files. Downloaded files can be saved on a local computer or in a Content Collection folder. [More Help](#)

1. Data

Select Data to Download

Full Grade Center

Selected Column

Weighted Total

Include Comments for this Column

User Information Only

2. Options

Comma-delimited files (.CSV) have data items separated by commas. Tab-delimited files (.TXT) are text files that have data items separated by tabs. Both are common types of data files and can be opened in most editing software. Tab-delimited files can be opened in Microsoft Excel but must be saved as .TXT files. Comma-delimited files need to be imported for use in Excel and must be saved as .CSV files. Saving the file in another format will make the file unreadable by the system when uploading.

Delimiter Type

Comma Tab

Include Hidden Information

Yes No

Hidden information includes columns and users that have been hidden from view.

3. Save Location

Select where to save the file.

Download Location

My Computer

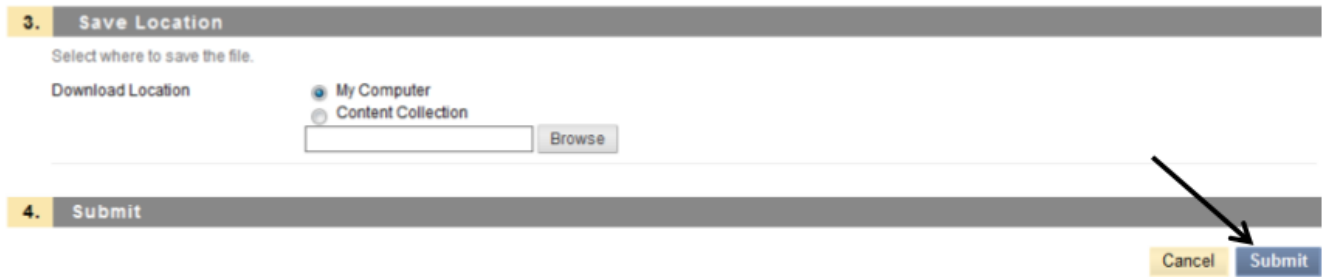

Content Collection

Browse

4. Submit

8. Click **Submit**.

9. Click the **Download**.

10. Select **Save File** and then click **OK**.

Note: The best course of action is to open the downloaded grade file in a spreadsheet application, such as Excel.
