

Why would only one child's name appear as a selection for a proxy with more than one child attending Owens?

For each student that has identified a person as a Proxy, there will be a tab with each student's name. When you select a name, you will see the listing of the items that that student has authorized you to see. To be in compliance with FERPA, the student has complete control over what information can be viewed by each user. If the student's name does not appear, he/she has not granted access to the account information. The parent should contact the student with questions regarding access.
