

What is the Owens Alert System?

The Owens Alert System is designed to keep our students, employees and visitors safe and informed. Program enrollees will automatically be able to receive notices by phone, email and text message when the College or your individual campus is closed because of inclement weather or emergencies.

Students will be asked to enroll and keep their information up to date every time they register for classes. Employees will need to enroll and keep their information up to date. Visitors, community members and alumni can request to be added to the list as well.

You can update information anytime through this page. You can unsubscribe or re-subscribe at anytime. **Information provided will only be used for emergency alerts and will be kept confidential.** Student records will not be updated with this information, so if you would like to update your official College records, please contact Oserve at (567) 661-7378 (SERV) or 1-800-GO-OWENS, Ext 7378 on the Toledo-area Campus or (567) 661-7378 (SERV) or 1-800-GO-OWENS, Ext 7378 on the Findlay-area Campus.

Owens Community College assumes no responsibility for delivery charges associated with receiving subscribed notifications.
